

SANKARI D | 3+ Professional Frontend Developer (React.js) | 7+ Years Overall Experience

Ph: +91 9566331020 | Location: Bangalore | Email: dpsankari27@gmail.com

Professional Summary

Frontend Developer with 3+ years of hands-on experience building responsive web applications and reusable UI components using React.js, JavaScript, TypeScript, HTML5, and CSS3. Experienced in React Hooks, Context API, React Router, responsive design, REST API integration, and converting Figma designs into production-ready interfaces. Skilled in component reusability, state management, performance optimization, code splitting, and lazy loading, with strong experience in Tailwind CSS, Bootstrap, Git, and GitHub.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3.
- **Frontend:** React.js, React Hooks, React Context API, React Router.
- **Styling & UI:** Tailwind CSS, Bootstrap, Flexbox, CSS Grid, Responsive Web Design.
- **Performance:** Lazy Loading, Debouncing, Throttling, Code Splitting, Component Optimization.
- **Design & Tools:** Figma, Photoshop, Design-to-Code Implementation, Git, GitHub.
- **API Integration & Backend:** Rest API using Fetch API, Async/await, Node.js (Basics), MySQL.
- **Additional:** Cross-Browser Compatibility, Mobile-First Development, Reusable Component

Professional Experience

Frontend Development - Independent Projects & Technical Upskilling

May 2024 – Present

- Developed 20+ reusable React components and 10+ responsive pages/modules using React.js, JavaScript, TypeScript, Tailwind CSS, and React Router.
- Implemented React Context API for state management and developed reusable, responsive UI components following modular frontend architecture.
- Applied code splitting and lazy loading across 5+ routes/components, improving application performance by approximately 25%.
- Integrated RESTful APIs and handled dynamic data, loading states, and error scenarios.
- **Certifications:** Certified React.js Developer – Simplilearn (2025); Node.js Fundamentals and Backend Integration Concepts – Simplilearn (2026).

Web Developer

Strawberry Infotech Pvt. Ltd., New Delhi (Client: MPS Ltd., Bangalore) | Sep 2023 – Apr 2024

- Developed responsive web application modules using React.js and TypeScript, including reusable UI components.
- Built responsive interfaces using Tailwind CSS, Bootstrap, Flexbox, and CSS Grid.
- Converted UI designs into responsive, pixel-accurate interfaces with cross-browser compatibility.
- Worked with REST APIs to display dynamic application data and optimized React components for improved responsiveness and usability.

Frontend Development | Digital Publishing - XML Process Executive

KPR Data Tech Books and Journals, Chennai | Apr 2017 – May 2023

Frontend Development & E-commerce | 2020 - 2023

- Developed responsive web pages and reusable React components using React.js, JavaScript, HTML5, and CSS3 for internal e-commerce applications.
- Implemented product search, filtering, pagination, and shopping-cart functionality for an application supporting 100+ products.
- Implemented React Context API for cart state management, including dynamic quantities, cart updates, and total price calculations.
- Built 10+ responsive pages/modules using Flexbox, CSS Grid, and media queries, and converted Figma/Photoshop designs into responsive, pixel-accurate interfaces.

XML | Digital Publishing | Web Design | 2017 – 2020

- Developed and maintained responsive digital publishing layouts and web pages using XML, HTML5, CSS3, JavaScript, Flexbox, and CSS Grid.
- Created and maintained 15+ digital publishing templates for different publication and content requirements.
- Worked on responsive layouts using media queries and modern web design techniques.

Earlier Experience | 2013–2016: E-Pub Developer / Company Trainee.

Projects

Food Ordering & Delivery Application

Project Link: <https://sankari-d27.github.io/Food-Ordering-App/>

Tech Stack: React.js, JavaScript (ES6+), Tailwind CSS, React Router, React Context API

- Developed a responsive food ordering application with 20+ reusable React components and 10+ responsive pages/modules for product discovery, categories, offers, cart, and checkout.
- Implemented product filtering and Context API-based cart management across 100+ menu items, including dynamic quantities and real-time price calculations.
- Applied code splitting and lazy loading across 5+ routes/components and optimized application performance by approximately 25%.

React Portfolio Website

Project Link: <https://sankari-d27.github.io/React-Portfolio/>

Tech Stack: React.js, JavaScript (ES6+), Tailwind CSS

- Developed a responsive portfolio website using React.js and Tailwind CSS with reusable components and mobile-first layouts.
- Implemented responsive project, skills, and experience sections and deployed the application using GitHub Pages.

Education

- B.E. in Electronics and Communication Engineering (2012) – 75.3%
- HSC (2008) – 86%
- SSLC (2006) – 90.2%
